PROFESSIONAL SUMMARY

Computer Science & Engineering graduate from United International University (2026) with hands-on project experience building responsive web applications using React.js, JavaScript (ES6+), and modern frontend tools. Built projects spanning an e-commerce platform, an order-risk dashboard, an app discovery interface, and a personal portfolio. Familiar with component-based UI development, client-side routing, state management, API integration, authentication concepts, and responsive layouts. Seeking an internship, trainee, or junior frontend/software development role to contribute to real products and gain professional team experience.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, DaisyUI
Routing & State: React Router, Redux Toolkit, React Context, client-side routing, state management
UI & Visualization: Responsive design, Recharts, Framer Motion, React Toastify, loading/error states
Backend & Data: Node.js, Express.js, REST API integration, MongoDB, Mongoose, JWT authentication
Tools & Deployment: Git, GitHub, Vite, Next.js, VS Code, Vercel
Project Integrations: Cloudinary image storage, SSLCommerz payment integration, email/WhatsApp notifications

PROJECTS

ShopWave — Multi-Vendor E-Commerce Platform

Tech: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, JWT, Cloudinary, SSLCommerz
Live: https://shop-wave-ebon.vercel.app/login

- Built a full-stack shopping platform with customer storefronts and admin workflows for products, stores, users, orders, coupons, and reviews.
- Implemented cart and checkout flows, order processing, role-aware access, and integrations for payments, image storage, email, and WhatsApp notifications.

Fraud Customer Detection — SmartShop Order Risk Dashboard

Tech: React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Recharts
Live: https://fraud-customer-detection.vercel.app/login

- Developed an order-management dashboard for customer profiles, order status, payment tracking, blacklist management, and analytics.
- Implemented rule-based order-risk scoring using return history, order frequency, cash-on-delivery value, blacklist status, and device-related signals, with risk levels and reasons.

Hero.io — App Store Platform

Tech: React.js, React Router, Tailwind CSS, Recharts, React Toastify
Live: https://hero-apps-store.vercel.app/

- Created a responsive app discovery interface with app listings, detail views, nested routing, and loading/error states.
- Added interactive rating charts and install-action notifications to improve browsing feedback and usability.

Personal Developer Portfolio

Tech: Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Vercel
Live: https://nayeems-portfolio.vercel.app/

- Built and deployed a responsive portfolio presenting professional background, technical skills, selected projects, and contact information.
- Used reusable React components, animated section transitions, and a dark/light theme experience for a consistent portfolio UI.

EDUCATION

B.Sc. in Computer Science & Engineering (CSE) | United International University (UIU), Dhaka
Graduation year: 2026

ADDITIONAL INFORMATION

Languages: Bengali (Native), English (Professional working proficiency)
Target roles: Internship, Trainee Developer, Junior Frontend Developer, Junior Software Engineer
Availability: Open to suitable on-site or remote opportunities
